

Name _____

Date _____

1.OA.6 Add and subtract within 20. a. Use strategies such as counting on; making ten (for example, $8 + 6 = 8 + 2 + 4 = 10 + 4 = 14$); decomposing a number leading to a ten (for example, $13 - 4 = 13 - 3 - 1 = 10 - 1 = 9$); using the relationship between addition and subtraction (for example, knowing that $8 + 4 = 12$, one knows $12 - 8 = 4$); and creating equivalent but easier or known sums (for example, adding $6 + 7$ by creating the known equivalent $6 + 6 + 1 = 12 + 1 = 13$).

Doubles
(Ch3 Go Math)

1. What doubles fact helps you solve $8 + 9 = 17$?

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

2. There are 4 white trucks. There are 5 gray trucks. How many trucks in all?
Use a doubles plus one fact to add.

$$4 + 5 = \underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}}$$

3. Use the picture. Write a doubles plus one number sentence.

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

Mastered

Not Mastered

2nd try _____ 3rd try _____

4. Draw a picture or use blocks to solve, then write the number sentence.

Tim and Sam both have 3 books. How many books do they have together?

$$\underline{\quad\quad} + \underline{\quad\quad} = \underline{\quad\quad}$$

5. Circle the number sentence that can help you solve the story.

Jen has 7 pumpkins and Kim has 6 pumpkins. How many pumpkins do they have together?

$$7 + 7 - 1$$

$$7 + 7 + 1$$

$$6 + 6 - 1$$
