## Riding in Gem Park

The path is uphill. And it is gravel	8
and cinders. The hill is gentle at	15
first. The ride is not bad. Then	22
the ride is hard. Tires slip on the	30
cinders.	31
If riders get tired, they rest.	37
They do not have to race. The	44
path is on a giant cliff. A fence	52
makes it safe. At the hilltop, it's	59
quiet. You see much in the	65
distance. At the top, the path	71
turns. It starts down the hill.	77
