

Practice Standard 1

I figure out math problems and
check my answer.

I persevere even when
problems are hard.

Practice Standard 2

I use numbers, words, and symbols to show math.

Practice Standard 3

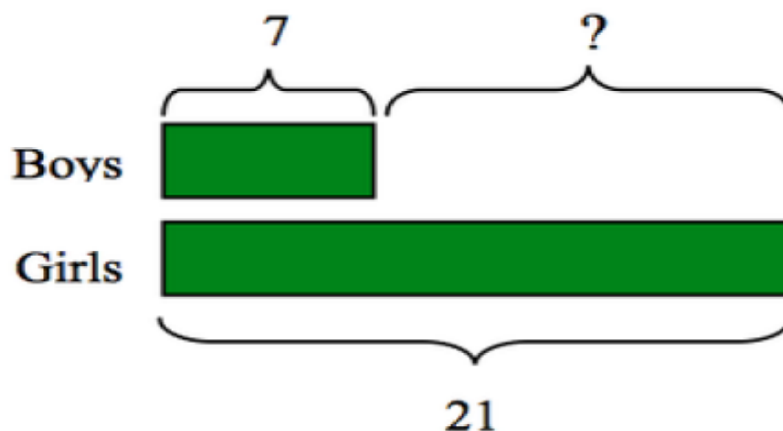

I can explain how I do math.

I listen to other students
tell how they do math.

Practice Standard 4

I show my math ideas with blocks, counters, pictures, and other materials.

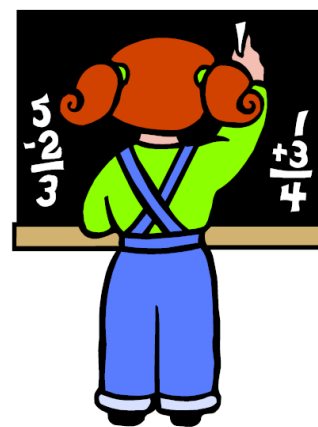

Practice Standard 5

I decide which math tool to use.
I know how to use
math tools.

Practice Standard 6

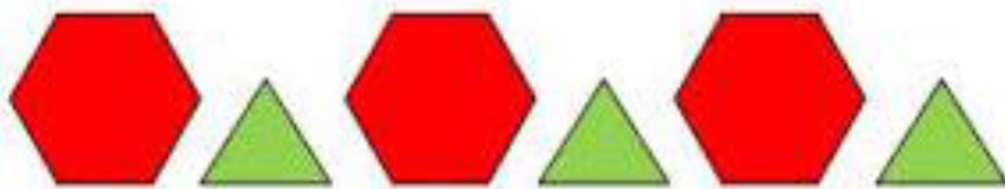

I try to be exact when I add and subtract. I use precise math words when I talk about my math ideas.

Practice Standard 7

I think about numbers and patterns to help me find answers. I look for parts and wholes.

Practice Standard 8

I notice when something happens over and over.
I try to figure out why it keeps happening.

Standards for Mathematical Practice

- 1.** I figure out math problems.
I keep trying even when problems are hard.

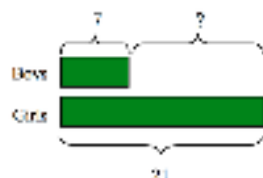

- 2.** I use numbers and symbols to show math.

- 3.** I can explain how I do math.
I listen to other students tell how they do math.

- 4.** I show my math ideas with blocks, counters, and other materials.
I draw pictures to show my math ideas.

- 5.** I decide which math tool to use.
I know how to use math tools.

- 6.** I try to be exact when I add and subtract.
I use math words when I talk about my math ideas.

- 7.** I think about numbers and patterns to help me find answers.

- 8.** I notice when something happens over and over.
I try to figure out why it keeps happening.
