

First Grade Sight Word Cards

These cards have several uses.

Copy each set of cards. Laminate. Cut. Store in snack bags with a label on the front to show the set of words.

- Copy a full page of circles or wavy lines or some type of design on the back of each different deck so when they get mixed up, they can easily be sorted out
1. Memory Game – Place all the cards face down on the table mixed up in an array. Each player takes a turn turning over 2 cards and reading each word aloud. If they match, the player keeps the cards and takes another turn. If they don't match, the player turns them upside down again and play goes to the next player. The player with the most cards when all the cards have been matched is the winner.
 2. Go Fish Game – You may need to join 2-3 word sets together for enough cards to play the game. Place all the cards in a pile in the center and give each player 4 cards. Each player takes a turn asking another player if he/she has a particular word. That player responds with either giving the asking player the chosen card or saying "Go Fish" if the responding player doesn't have the card. If you "fish" your wish and get the card in the turn you ask for it, you get another turn. Player with the most matches when the cards are gone is the winner.
 3. Place a card or two by the door each day for the students to read over and over as they come in and out of the door or other high traffic area. It could also be placed in a clear pocket on a lanyard around a student's neck. The student can go around quizzing his/her classmates about the word all day. It can be given to the helper for the day or a student who is struggling to learn that particular word. Repetition is valuable with sight words.
 4. Put the words in a pocket chart to display with your daily/weekly objectives and goals.
 5. Use them as student flashcards.
 6. Anything else you can think of!
