

Unit Game Cards

These words were all taken from the Phonics Blending portions of each week in the units. It is set up so that each week of words is together. You can print all the cards for a unit on the same color for the unit, but copy a different pattern page on the back of each week to easily sort and use the different cards within the unit. For example: All of week 1's long a words could have dots on the back. Week 2's long i words may have strips on the back of each card. Etc. This would make it easy to add the cards each week as they are studied and then separate them again later.

Cards can be used in many ways. Here are just a few ideas:

GAMEBOARDS

Play in partners or small groups using any generic gameboard. Put all cards face down in the center. Players take turns drawing a card. If read correctly, the player can move their game piece on the gameboard. If incorrect, players do not move. Word cards are discarded in a pile. First player to reach the end wins.

Ways to move:

1. Roll a die and move that number of spaces.
2. Move the number of sounds in the word.
3. Move the number of syllables in the word.

FLASHCARDS

Have students quiz each other on the words.

SORTING

Have students sort the cards based on sounds (long a, long i, contractions, etc.)

SENTENCE WRITING

Students draw a card and write a sentence using the word. Students could also draw 2 or more cards and include them all in the same sentence.
